**DETAILED ACTION**

***Response to Amendment***

The amendment filed on 10/2/2006 has been entered.

***Allowable Subject Matter***

Claims 1-20 are allowed. The following is an examiner's statement of reasons for allowance:

**Regarding independent claim 1**, the prior art of record does not teach or suggest the invention of an organic light emitting diode display having a heating circuit structure having a first and second conductive lines not connected each other being connected to a first and second heating wires respectively through contact holes in an isolation layer, and the first and second heating wires being electrically connected to a ground electrode, along with other claimed limitations. Claims 2-10 are allowed due to claim dependency.

**Regarding independent claim 11**, the prior art of record does not teach or suggest the invention of an organic light emitting diode display having first and second heating wires covering portions of pixel areas, TFT being disposed on each of the heating wires, isolation layer covering the TFT and heating wires, the first heating wires being electrically connected to the first conductive wire and the corresponding OLED generate green light, and the second heating wires being electrically connected to the second conductive wire and the corresponding OLED generate red light, along with other claimed limitations. Claims 12-20 are allowed due to claim dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
